PROFILE

MSc International Business graduate with a passion for all things brand. As a brand marketing intern at Henkel, I worked on brand strategy and research as well as the hands-on execution that brings a brand to life across markets. Now I'm looking to help build and grow brands that people connect with.

- Coordinated with stakeholders across multiple countries to manage campaign shoot logistics: arranged product shipments, provided creative direction feedback on set design and materials, and contributed to casting decisions by evaluating talent profiles and defining character briefs.
- Reviewed and edited the Pattex Brand Book to ensure brand strategy, visual identity, and communication guidelines were aligned across all touchpoints of the new campaign direction.
- Worked with the design partner to develop point-of-sale materials, key visuals, and presentation templates for the campaign, providing creative briefs and storyboard concepts as direction for execution.
- Integrated AI tools, including ChatGPT, Claude, and Microsoft Copilot, into daily workflows for brief writing, deck creation, and content iteration, improving turnaround times on senior stakeholder deliverables.
