Application for Marketing Internship – starting from March 2026

Dear Recruiting Team,

I am currently in the 3rd semester of my Master's in International Business at WHU – Otto Beisheim School of Management. I would like to apply for the Marketing Internship at Adidas AG and am available from March 2026 through August 2026.

I've always been fascinated by how powerful brands connect with people, not just through campaigns, but through stories that inspire emotion and belonging. That's what drew me to marketing after beginning my academic career in the sciences. My internship at Henkel's Global Marketing team gave me the opportunity to contribute to the relaunch of Pattex No More Nails, where I helped develop creative brand assets and supported the design of a long-term campaign roadmap tailored for different markets and consumer segments. Through this, I learned how to align creativity with strategy, ensuring that every touchpoint strengthens brand purpose and consumer connection.

What excites me most about Adidas is its ability to translate the spirit of sport into culture, empowering people to express themselves, move confidently, and feel part of something bigger. Working on marketing campaigns that carry such meaning would be a natural next step for me. I'm particularly inspired by Adidas' focus on innovation, inclusivity, and sustainability, and I would be eager to contribute to initiatives that connect these values with consumers through authentic storytelling.

Prior to Henkel, I worked as a Sales Team Lead at Pickyourtrail, where I led a team of six and consistently achieved sales targets while enhancing our pitch strategies based on destination trends and client behavior insights. This role developed my customer-centric thinking and showed me how performance data and brand communication must go hand-in-hand to drive conversion. This sharpened my ability to view marketing not just as communication, but as an evolving conversation between brand and consumer, something I believe is core to Adidas' customer-first approach.

I'm eager to bring a blend of creativity, analytical thinking, and global perspective to Adidas' marketing team. Thank you for considering my application. I look forward to the opportunity to learn from and contribute to a brand that continues to inspire and motivate people.

Thank you very much for considering my application. I am excited about the opportunity to learn from the team at Adidas, and I look forward to discussing my fit for the program in further detail.

Sincerely,
Shruthi Sankaranarayanan
