Application for Internship Corporate Strategy - Business Development – starting from May 1st, 2025

Dear Recruiting Team,

I am currently in the first semester of my Master's in International Business at WHU – Otto Beisheim School of Management. I would like to apply for the Internship Corporate Strategy - Business Development at BSH Home Appliances Group and am available from May through August 2025.

BSH Home Appliances Group's mission to drive innovation through strategic corporate development aligns closely with my academic and professional background. Working with globally recognized brands like Bosch, Siemens, Gaggenau, and Neff offers an exciting opportunity to combine my expertise in strategy and business development with meaningful contributions to high-impact projects.

At WHU, my coursework in International Strategy provided me with a structured framework to approach complex business challenges. Through case studies on organizations like Coca-Cola and Boeing, I explored how strategic decisions influence market positioning and long-term growth. I received top marks (1.0) for my ability to analyze competitive landscapes, identify growth opportunities, and propose actionable solutions. This structured, forward-thinking approach has shaped my ability to make data-driven recommendations, a skill I am eager to bring to BSH's corporate development initiatives.

In my previous role as Sales Team Lead at Pickyourtrail, I combined strategic thinking with hands-on business development to drive measurable results. I managed a €2.6 million annual revenue target, leading a team of six by using data to uncover high-growth opportunities and refine sales pitches based on performance metrics and market trends. Each month, I reviewed client conversion data to identify high-potential destinations, aligning team efforts to focus on those regions. This approach improved conversion rates and streamlined operations, demonstrating the value of applying strategic insights to day-to-day tasks.

I also worked closely with individual team members to analyze their performance metrics, identify areas for improvement, and address motivational factors. This taught me the importance of combining a data-driven approach with practical team management to achieve shared goals. These experiences mirror the tasks outlined in this internship, such as collaborating across interdisciplinary teams, analyzing markets, and preparing data-driven presentations for leadership.

What excites me most about this internship is the opportunity to actively contribute to projects that shape BSH's strategic direction while working closely with experts across international teams. The chance to support growth initiatives, conduct competitor intelligence, and prepare analyses for the Board of Management presents a unique platform to apply my skills and learn from a globally impactful organization.

Thank you for considering my application. I am confident that my academic foundation in strategy, combined with my business development experience, will enable me to make meaningful contributions to your team. I look forward to discussing how my background and skills align with BSH's goals in greater detail.

Sincerely,
Shruthi Sankaranarayanan
