Application for Business Development internship – starting from May 1st, 2025

Dear Recruiting Team,

I am currently in the first semester of my Master's in International Business at WHU – Otto Beisheim School of Management. I would like to apply for the Business Development Internship at Consultport and am available from May through August 2025.

Recently, I had the privilege of attending a guest lecture by Dr. Dirk Brauman, EVP of Corporate Accounting, Reporting & Controlling at Deutsche Post DHL Group. During his talk, he shared insights into DHL's sustainability initiatives and the pivotal role consultants play in driving efficiency and innovation in global operations. This lecture provided a deeper understanding of how complex strategies are developed and executed within large-scale organizations, sparking my interest in the consulting field. It reinforced my desire to gain hands-on experience in solving high-impact problems and shaping transformative business strategies.

My academic journey at WHU has been instrumental in shaping my approach to strategy and problem-solving. In particular, my course in International Strategy provided an in-depth understanding of various business models and strategic frameworks. Through case studies of organizations such as Coca-Cola, Boeing, and Hindalco, I explored how strategic decisions influence competitive positioning and organizational success. This structured, forward-thinking approach to analyzing complex challenges deeply resonated with me and reinforced my passion for strategy. Earning top marks (1.0) in the course and being commended for my insights reflects my analytical and structured problem-solving capabilities—skills that I am eager to apply to high-impact projects at Consultport.

In my previous role as Sales Team Lead at Pickyourtrail, I gained valuable experience in planning and coordinating tasks across a team. My different responsibilities taught me the importance of considering each team member while adopting a team-wide strategy that kept everyone aligned and motivated. Each month, I reviewed performance data and client conversion metrics to highlight which destinations were driving the best results. This analysis helped me focus our efforts on high-potential destinations and adapt our sales pitches to match client preferences and seasonal demand. By guiding my team in these efforts, I learned how strategic insights can be practically applied to achieve measurable goals—a skill I am eager to develop further in this role. I also worked closely with team members who needed extra support, looking into their performance metrics to identify improvement areas and addressing any other factors that might impact their motivation. This experience taught me the value of combining strategy with practical team management—a skill set that aligns well with Consultport's focus on high-impact, collaborative work environments.

At Pickyourtrail, I also developed innovative client acquisition strategies, targeting high-potential markets identified through market analysis of top selling destinations experiencing heavy tourism. This experience sharpened my ability to analyze market opportunities and devise actionable strategies to drive business growth.

What excites me most about Consultport is the opportunity to take ownership of impactful projects and collaborate with top-tier consultants and clients on a global scale. The chance to grow within a fast-paced, entrepreneurial environment aligns perfectly with my aspirations, and I am confident that my skills and experiences will allow me to contribute meaningfully to your team.

Thank you very much for considering my application. I am excited about the opportunity to learn from the team at Consultport's, and I look forward to discussing my fit for the program in further detail.

Sincerely,
Shruthi Sankaranarayanan
