Application for Corporate Strategy Internship – Starting from May 1st, 2025

Dear Recruiting Team,

I am currently in the first semester of my Master's in International Business at WHU – Otto Beisheim School of Management. I would like to apply for the Corporate Strategy Internship at Infineon and am available from May through July 2025.

I recently attended a guest lecture by a WHU alumnus who emphasized the critical role of corporate strategy in driving innovation and success at multinational companies. This discussion piqued my interest in Infineon's strategic initiatives, particularly its emphasis on decarbonization and digitalization. I am drawn to this opportunity to learn from industry leaders and contribute to Infineon's efforts in shaping innovative strategies for a sustainable future.

My WHU course in International Strategy provided an in-depth understanding of various business models and strategic frameworks. This course sparked an interest in the strategies that drive success or failure in major organizations, such as Coca-Cola, Boeing, and Hindalco. As I delved deeper into case studies, I became fascinated by how strategic choices can shape an organization's future, impact its competitive positioning, and ultimately determine its success. This structured, forward-thinking approach, where every decision considers multiple potential outcomes, appeals to me and motivates me to further explore the field of strategy. I received top marks for the course (1.0) and was commended for my insights, reflecting my analytical and structured approach to problem-solving. This academic experience, combined with my professional background, has given me a unique perspective on addressing business challenges within a strategic context.

In my previous role as Sales Team Lead at Pickyourtrail, I gained valuable experience in planning and coordinating tasks across a team. My different responsibilities taught me the importance of considering each team member while adopting a team-wide strategy that kept everyone aligned and motivated. Each month, I reviewed performance data and client conversion metrics to highlight which destinations were driving the best results. This analysis helped me focus our efforts on high-potential destinations and adapt our sales pitches to match client preferences and seasonal demand. By guiding my team in these efforts, I learned how strategic insights can be practically applied to achieve measurable goals—a skill I am eager to develop further in this consulting role. I also worked closely with team members who needed extra support, looking into their performance metrics to identify improvement areas and addressing any other factors that might impact their motivation. This experience taught me how to combine strategic insights with practical team management, a skill set I am eager to refine further in a corporate strategy role at Infineon.

The Corporate Strategy Internship at Infineon offers an exceptional opportunity to contribute to impactful projects while gaining hands-on experience in strategy development. I am confident that my curiosity, analytical mindset, and ability to collaborate effectively will enable me to excel in this internship and make meaningful contributions to your team.

Thank you very much for considering my application. I am excited about the possibility of joining Infineon and look forward to discussing how my skills align with your goals.

Sincerely,
Shruthi Sankaranarayanan
