Application for Strategy Intern – starting from May 1st, 2025

Dear Recruiting Team,

I am currently in the first semester of my Master's in International Business at WHU – Otto Beisheim School of Management. I would like to apply for the Strategy Intern position at getquin and am available from May through August 2025.

During my studies at WHU, I have developed a keen interest in understanding how innovative companies like getquin scale and build products that transform user experiences. The concept of integrating portfolio tracking with a social network to foster financial literacy is a bold and exciting approach. With over 500,000 users and backing from prominent fintech investors, getquin represents the kind of dynamic environment where I can apply my skills and grow professionally in a fast-paced environment.

My academic journey has equipped me with the tools to analyze and solve complex problems. In my International Strategy course, I explored strategic frameworks that help organizations identify growth opportunities and respond to challenges effectively. My ability to evaluate business models and competitive landscapes was recognized with top marks (1.0), and I am eager to bring this structured and forward-thinking approach to getquin.

In my previous role as Sales Team Lead at Pickyourtrail, I spearheaded initiatives that optimized sales pipelines and increased market penetration. By analyzing performance metrics and adapting strategies to market trends, I successfully managed a €2.6 million annual revenue target and mentored a team of six to consistently exceed goals.

My experience in synthesizing data-driven insights with collaborative execution has prepared me to thrive in the varied and impactful responsibilities of the Strategy Intern role.

What excites me most about this position is the opportunity to work closely with the co-founders and Chief of Staff, contributing to initiatives that shape the future of the company. The dynamic and collaborative environment at getquin aligns with my ambition to work at the intersection of strategic thinking and operational execution.

Thank you for considering my application. I look forward to the opportunity to discuss how my experiences and skills can support getquin in its mission to redefine the investing landscape.

Sincerely,
Shruthi Sankaranarayanan
