## Letter of Recommendation

To whomsoever it may concern,

I would like to formally recommend Shruthi Sankaranarayanan, who worked with Pickyourtrail from December 1, 2021. Shruthi assumed the role of a Travel Consultant, and in this capacity, she consistently demonstrated exceptional skills in connecting with a diverse range of customers daily. Her primary responsibilities included understanding the unique travel requirements of our clients and crafting personalized travel plans to ensure a comfortable and memorable experience for them.

Beyond the essential qualities of effective communication, professional ethics, and perseverance, what truly set Shruthi apart was her outstanding sales skills, particularly her adept sales pitch. Her ability to articulate the value proposition of our travel services significantly contributed to the success of our sales efforts. Shruthi's dedication to her role and her commitment to delivering high-quality service did not go unnoticed. She consistently exceeded expectations, and her positive impact on both our team and our customers was commendable. I would also like to highlight that she was my team's top performer, achieving an overall revenue rate of 145% for the entire year.

In addition to her remarkable revenue-generating abilities and the qualities previously highlighted, I would like to emphasize Shruthi's insatiable curiosity for learning about new destinations. This particular trait proved to be a game-changer for our team's success, especially in the case of Bali. Shruthi took it upon herself to delve deep into the intricacies of Bali, demonstrating an extraordinary commitment to understanding the destination thoroughly.

Her dedication to learning and mastering the nuances of Bali played a pivotal role in the successful scaling of Bali as a focused destination within our organization.
