WORK EXPERIENCE

Pickyourtrail

(An innovative startup enabling customers, agents, and corporates to customize and book personalized travel experiences)

Sales Team Lead

Chennai, India

July 2023 - March 2023

- Led and managed a team of six, overseeing the recruitment, goal-setting, performance coaching, and continuous monitoring to drive sales outcome
- Coordinated weekly team meetings, providing analytical performance insights, setting clear targets, and ensuring each member succeeded in their roles through effective communication and feedback
- Managed a revenue target of over €222K per month and consistently achieved 100% performance month over month
- Developed and implemented destination training programs to strengthen product knowledge, enhance sales effectiveness, and ensure client satisfaction. Provided hands-on coaching during client interactions to maintain high service standards.

Senior Travel Consultant

December 2022 - June 2023

- Consulted with clients to design tailored international vacations, aligning with their preferences and budget, while delivering exceptional customer service throughout the planning and execution stages
- Exceeded sales targets by achieving 130% of an assigned goal, generating €463K in revenue by understanding client needs and recommending suitable solutions.
- Took the initiative in onboarding and mentoring new team members, sharing best practices and sales techniques to elevate team performance
- Maintained high customer satisfaction, receiving a 9/10 average customer experience rating over 600+ trips by delivering personalized travel solutions
- Ranked as the top performer in 3 out of 6 quarters in a cohort of 60 sales consultants

Master Your Brain

(Private Therapeutic Practice)

Counseling Psychology Intern

September 2020 - June 2021

Delhi, India

- Participated in counseling sessions with clients presenting psychological disorders, building skills in effective communication and active listening.
- Developed key communication skills such as empathy, active listening, and rapport-building
- Administered psychological assessments and mental status examinations, utilizing evidence-based interventions to aid client progress
- Analyzed over ten case studies to develop tailored treatment strategies

RESEARCH PROJECTS

Gender bias on dating apps

March 2021 - June 2022

- Designed and executed a comprehensive survey to examine gender bias on dating applications, focusing on key metrics such as safety, connection dynamics, gender roles, and messaging behavior
- Collected and analyzed data from 206 participants, evaluating multiple metrics and identifying correlations between user concerns and app experiences
- Derived actionable conclusions, highlighting how gender differences influence app design and contribute to biases in user experience.

Effect of Phyto-formulation on selected molecular targets involved in Alzheimer's disease pathways

December 2018 - May 2019

- Investigated the therapeutic effects of a plant-based formulation on inflammation, neuronal proliferation, and survival pathways
- Managed and interpreted large datasets while optimizing experimental protocols to ensure consistent and valid results
- Collaborated with a research team and contributed to a publication
- Publication: K. Rajendran, D. R. Chellappan, S. Sankaranarayanan, V. Ramakrishnan, U. M. Krishnan, "Investigations on a polyherbal formulation for the treatment of cognitive impairment in a cholinergic dysfunctional rodent model," Neurochemistry International, Elsevier, Thanjavur, 2020
